He was held in \$25,000 bail, which he was unable to furnish. Hart-man was indicted Monday after Assist-ant District Attorney Delehanty had been informed that he planned to sail for Europe to-day. He was indicted on three counts, charging larceny of \$25,000, \$60,000 and \$48,000.

## Pair Met in London.

Mrs. Mackenzie and Hartman met for the first time in London in 1911. Several times she appealed to him for advice concerning the handling of the fortune her husband had left her. Later in that year they met again in this country. Mrs. Mackenzie had borrowed from the Hudson County National Bank of New Jersey \$74,000, giving daybreak eight soldiers were roused as security 1,440 shares in the Singer Sewing Machine Company, and in their conversations she mentioned this fact followed immediately by Lody, who

aiting six months she sought legal ANOTHERWADSWORTH SON advice. Investigation showed that Mrs. Mac-

true bill against Nicholas Ahlers, the German Consul in Sunderland, on the charge of high treason.

According to the indictment Mr. Alcerding to the indictment Mr. Ahlers was naturalized in 1905. After the declaration of war he engaged in helping German reservists leave England for Germanus.

## GERMANY RUNS SHORT OF LEAD; TAKING METAL FROM ALL PIANOS

London, Nov. 10 .- Besides the shortage of anæsthetics, already reported, there is considerable lack of lead in Germany, according to Dr. E. K. Johnstone, of San Francisco, an officer in the United States Medical Reserve Corps, who has just returned from a long stay in Belgium. Incidentally, Dr. Johnstone pays a high tribute to the German Red Cross, which he was afforded opportunities of studying comprehensively. He expressed a doubt that the Germans had used the Red Cross to protect them when carrying

out their attacks. "There is no doubt that supplies of lead are running low in Germany. owing to the stoppage of the mines in Galicia and Silesla," said Dr. Johnstone. "A few days before I left Berlin a secret order was issued calling upon the music stores to turn over to the government all lead in planos and other musical instruments in which that metal is used.

"This demand, which, of course, is being rigorously enforced, has aroused feelings of the deepest dejection in the music trade, which foresees an immediate ruin to itself. The shortage of anæsthetics is due chiefly, I think, to the German General Staff's belief that it could readily replenish its supply from captured French and Belgian medical stores, and as Germany doesn't produce the basic ingredients of ether or chloroform the Red Cross is in bad shape in this respect."
